### 🏢 PROFESSIONAL EXPERIENCE

Jul 2018  
- Present

#### 📌 Environment Artist Oxford VR

I work with other artists and clinical psychologists to shape believable worlds used to provide VR treatment for mental health issues.

##### Projects

**GameChange** - Environment asset creation, scene building and lighting in Unity.

**Fear of Heights** - Asset creation and assisted with optimisation, scene implementation and lighting within Unity.

Jun 2013  
- Jul 2018

#### 📌 3D Artist Draw & Code

I was responsible for designing and creating assets for augmented reality, virtual reality and projection mapping projects and demos.

##### Projects

**Swapbots** - Character and environment assets for a AR toy and mobile game.

**Merge Cube** - Design and creation of assets for two mini-games on an AR soft toy.

**Companion** - Design and created character and environment assets for an AR & VR collaborative game demo.

Nov 2011  
- Jan 2012

#### 📌 Freelance Murals Wallpaper

Editing photos for customisable backgrounds for the website.

Hello! I've been an artist since childhood, and my path has led me to the wonderful realm of crafting 3D worlds, with a particular connection to immersive experiences. My personal love for games and the gaming industry has continued to power me up and I'm always keen to learn and keep creating compelling environments.
